

Respondus LockDown Browser Settings

This tutorial will show you how to setup the Respondus LockDown Browser in Moodle.

1. Go to the course homepage and click **Turn editing on**.

2. Go to *Blocks*, and click on **Respondus LockDown Browser** in the list.

3. Click on **Dashboard** within the new *Respondus LockDown Browser* block.

4. At this point you can click **Enable** or **Disable** next to specific tests that need the Respondus LockDown Browser. You will notice that when you enable tests requiring the Respondus Lockdown Browser, the test will have their name changed to indicate that the setting is on.
