Entry Edit Checks

IF Unknown, Use UNK: If the person has no middle name/initial, you should enter **NMN**. If you do not know the first name and/or middle name, enter **UNK** for one or both.

Suffix (Jr., Sr.): A suffix should be used for additional designations such as Jr., Sr., II (2nd), or III (3rd), where applicable.

Middle Initials: If the first or middle name consists of an initial only, enter the initial(s). In addition, if the name has no suffix, indicate the use of initial(s) by entering **IO** in the suffix. [Example: J P Smith IO.] However, if the name has a suffix, the suffix takes priority and **IO** should be omitted.

Special Symbols: If appropriate, you can use spaces, apostrophes (‘), hyphens (-), and period (.) within a name. [Examples: Carol Anne St. James or, Mary Lisa O’Grady or Jean NMN Jenkins-Smith]

Dates: Dates must be entered in the format YYYY/MM/DD. For example, January 18, 1947, would be 1947/01/18. Your own birth date must be entered completely. Other dates can be entered as YYYY/MM/?? if you are unsure of the day. Estimate the month if you are unsure. For example, a date you believe to be in January 1947 would be entered as “1947/01/??” You CANNOT use “future” dates in most fields.

Foreign Addresses: **Although** EPSQ does not validate the internal contents of addresses, you should enter APO addresses using the following format. For APO addresses, enter the unit name in Address line 1 and the APO designation (e.g., APO-AE for Europe) in Address line 2. Enter the APO number (without “APO”) in the ZIP or FPC field. Do not use the State Code field. In the Country Code field, enter the actual country location.

If a user has no choice than to list references outside the U.S., there is a way to “fool” the EPSQ into accepting them, if the listed individuals have addresses that include APO numbers. The user enters APO AA, APO AE, or APO AP (as appropriate) as the City. The user then enters FL (if APO AA), NY (if APO AE), or CA (if APO AP) as the State, and the appropriate APO number as the Zip Code. This method will allow users to enter data regarding references that live outside the U.S., if the user is unable to avoid listing those individuals in the EPSQ.
