Class Participation

Participation in class comprises the heart of online learning. All students are expected to participate in the discussions in addition to the quizzes and exams. When students refrain from contributing to the class discussion, they not only learn less, but their grade also reflects their absence. Make sure you budget enough time this semester to join in the discussions and group activities.

In alignment with face-to-face attendance policies, any student who misses more than 20% of class discussions and/or quizzes (equal to three weeks/modules) will be dropped from the course with a WF (withdraw-fail). WFs appear on student transcripts, which becomes a permanent part of the student records. If a student falls behind, it would be better to drop the course than to receive a WF.

Also, for us to have a pleasant learning experience, we must have a certain culture in our discussions. Please read over the online etiquette. We must commit to respectful treatment of each post, remembering that although the course is online, the person submitting the post has flesh and blood and real feelings. Additionally, keep in mind that your posts become part of the history of this course. I would refrain from saying anything that you would not want to be held against you in the future.

Time Management Expectations

In on-ground classes, for every hour spent in the classroom, the typical student should expect to spend at least two clock hours problem-solving, reading, reviewing, organizing notes, preparing for coming exams/quizzes, and other activities that enhance learning.

For this online course, students should plan on spending about 23 hours a week reading and engaging in the assignments online.

Netiquette

1. **Remember this is a classroom.** A Web-based classroom is still a classroom, and comments that would be inappropriate in a regular classroom are likely to be inappropriate in a Web-based course as well. Treat your instructor and your fellow students with respect.
2. **Brevity is best.** Be as concise as possible when contributing to a discussion. Web-based courses require a lot of reading, and your points might be missed if hidden in a flood of text. If you have several points that you want to make, it might be a good idea to post them individually, in several more focused messages, rather than as a single, lengthy, all-encompassing message.
3. **Stick to the point.** Contributions to a discussion should have a clear subject header, and you need to stick to the subject. Don't waste others' time by going off on irrelevant tangents.
4. **Read first, write later.** Don't add your comments to a discussion before reading the comments of other students unless the assignment specifically asks you to do so. Doing so is tantamount to ignoring your fellow students and is rude. Comments related to the content of previous messages should be posted under them to keep related topics organized, and you should specify the person and the particular point you are following up on.
5. **Post correctly.** Make sure your postings are located in the correct thread.

6. **Netspeak.** DO NOT TYPE IN ALL CAPS OR USE EXCLAMATION MARKS!!!!!! :-) This is regarded as shouting and is out of place in a classroom. Given the absence of face-to-face clues, written text can easily be misinterpreted. Avoid the use of strong or offensive language. If you feel particularly strong about a point, it may be best to write it first as a draft and then review it, before posting, in order to remove any strong language.
7. **The recorder is on.** Think carefully about the content of your message before contributing it. Once sent to the group, there is no taking it back. Also, although the grammar and spelling of a message typically are not graded, they do reflect on you, and your audience might not be able to decode misspelled words or poorly constructed sentences. It is a good practice to compose and check your comments in a word-processor before posting them. However, unless grammar and spelling are graded components of the course do not obsess. Never criticize or comment on others' grammatical or spelling errors, unless doing so is part of your assignment.
8. **Test for clarity.** Messages may often appear perfectly clear to you as you compose them, but turn out to be perfectly obtuse to your reader. One way to test for clarity is to read your message aloud to see if it flows smoothly. If you can read it to another person before posting it, even better.
9. **Keep a straight face.** Humor is important in an online course as it can add to the enjoyment and personality of the course. However, avoid humor and sarcasm directed toward others. These frequently depend either on facial or tone of voice cues which are absent in text communication. Keep your humor directed either at yourself or at no one in particular. Also, remember this is a Christian environment and our humor should reflect our respect for each other and Christ. If you have a good clean joke to share, feel free. Humor gives us a glimpse into your personality.
10. **Be forgiving.** If someone states something that you find offensive, mention this directly to the instructor. Remember that the person contributing to the discussion may be new to this form of communication. What you find offensive may quite possibly have been unintended and can best be cleared up by the instructor.

If you experience a power outage, Internet service outage, LMS (Canvas), or other technical issues, you are held responsible for completing your assigned work in a timely manner. Harding University is not responsible for the student's access to a working computer or reliable Internet service. An Internet outage or computer issue is not an excuse for late work. A backup plan for reliable Internet service and a working computer is prudent. Should you experience any such issues, communicate with your instructor in a timely manner.

If your instructor experiences a power outage, Internet service outage, LMS (Canvas), or other technical issues that significantly affect the timing of online assignments, grading assignments, or significantly interferes with the instructor/student communication channel, adjustments to due dates will be made.

If the diagnosis of the disability occurs during the academic year, the student must self-identify with the Office of Disability Services and Educational Access *as soon as possible* in order to get academic accommodations in place for the remainder of the semester. The Office of Disability Services and Educational Access is located in Room 226 in the Student Center, telephone, (501) 279-4019.

Since some students in online courses will not have access to the Office of Disability Services and Educational Access located on the Searcy campus, the student must self-identify with the instructor of the course and submit documentation by fax (501-279-5702) or mail (915 E. Market Ave., Box 12268, Searcy, AR 72149-5615) to the Office of Disability Services and Educational Access on the Searcy campus. The necessary forms are available at the [Student Life Disabilities Services Website](#). Upon receiving the appropriate documentation approved by ADA guidelines, academic accommodations may be set up by the instructor via a telephone conference with the Director of Disability Services and Educational Access. If you have questions, please contact the Office of Disability Services and Educational Access at DisabilityServices@harding.edu or (501) 279-4019.

Since students on an international campus will not have access to the Office of Disability Services and Educational Access located on Harding University's Searcy campus, the student must self-identify with the International Studies office prior to being accepted for a semester abroad. Reasonable academic accommodations (e.g. extended time on tests, a quiet room/no distractions for testing, etc.) may be made by the faculty on an international campus. However, a doctor's statement will be required for a physical or psychological disability stating that the student is capable of fully participating in the rigorous travel itinerary (group and independent travel) as well as intense academics the semester he/she is abroad.

Academic Integrity

A key component of online education is the integrity of the students. Harding University and the instructor assume the students will not engage in dishonest activity while taking this course. Copying another person's work and claiming it as your own is cheating and unethical, this includes recycling old papers or rewording online articles. The student must answer all written responses with his or her own words. Quotations from other sources must be documented appropriately and kept at a minimum. Below is the official academic integrity statement from the university:

Honesty and integrity are characteristics that should describe each one of us as servants of Jesus Christ. As your instructor, I pledge that I will strive for honesty and integrity in how I handle the content of this course and in how I interact with each of you. I ask that you join me in pledging to do the same.

Academic dishonesty will result in penalties up to and including dismissal from the class with a failing grade and will be reported to the Assistant Vice President for Academic Affairs. All instances of dishonesty will be handled according to the procedures delineated in the [Harding University catalog](#).

In the event that cheating or plagiarism occurs, I will be forced to initiate a misconduct report and implement one of the following sanctions (as per the university catalog):

Class A Sanctions (Course Level)

1. Repeating of the assignment or completion of an additional assignment, with possibly less credit awarded in either case.
2. Lowering of the grade on the test or assignment, possibly to “F” or zero.
3. Lowering of the grade for the course, possibly to “F.”
4. Immediate removal from the course with either a “W” or an “F” placed on the transcript.

If I discover plagiarism or cheating, the guilty or suspected student will not need to provide me with a defense. I will submit a misconduct report to Academic Affairs and notify the student. Each student has the right to appeal the report with Academic Affairs, but I will not tolerate cheating or plagiarism at all at the course level. Although I will file a report, I will decide which sanction to use based on the severity of the offense.

A good rule of thumb, do not cheat or plagiarize! If you have any questions about what that means, consult the catalog under "Ethical Standards" and "Academic Integrity Policy."

Referencing Information

Turabian is the required writing format for online Bible classes. You can find information for using [Turabian](#) on their website.

If a source is questionable, e.g., Wikipedia, other wikis, ask.com, answers.yahoo.com, etc., please contact your professor for clarity and permission before using a source that falls outside the scope of traditional academic standards. It is also important that you show how these references assisted your academic work; so make sure you reference your sources in every assignment you submit, no matter how mundane the assignment may be. Failure to properly and completely cite your sources may constitute plagiarism or cheating, as delineated in the Academic Code of Conduct. Bottom line, remember these two simple rules: 1) give credit where credit is due, and 2) if it isn't your words, ideas, or thoughts, it is someone else's and needs to be cited.

[The Harding University Writing Center](#) will help you review your plans for a paper, review a draft, revise a graded paper, or answer your questions about content, organization, style, tone, and documentation. To schedule an appointment with the Writing Center, go to their [Appointment Scheduler](#) or you can ask questions via email at HardingUniversityWritingCenter@gmail.com.

Code of Academic Conduct

Students of Harding University are expected to be honorable and to observe standards of academic conduct appropriate to a community of Christian scholars. Harding University expects from its students a higher standard of conduct than the minimum required to avoid discipline. Harding expects its students to conduct themselves as responsible citizens in a Christian community. Enrollment at the university is viewed as a privilege that brings the attendant responsibilities and accountability. In order to encourage Christian living and growth, the University administers a Student Code of Conduct. This code is provided to every student upon enrollment.

Upon registration to the University, students acknowledge and agree to abide by this code. Harding University reserves the right to refuse admission or dismiss students whose lifestyle is not consistent with the Christian principles for which Harding stands; and when the general welfare of the institution requires such action. Students suspended for disciplinary reasons during a semester may receive a grade of “F” in all courses for that semester. Please visit the appropriate Harding University Student Handbook ([undergraduate](#) or [graduate/professional](#)) for further details.

If a student has a grievance, discuss this with the instructor. If that discussion does not suffice, contact Tim Westbrook at the Center for Distance Education in Bible and Ministry (501) 279-5290.

Changes to Syllabus Notice

The instructor reserves the right to modify and update any part of the syllabus where necessary. It is your responsibility to stay up to date with any changes communicated by the professor.
