Re: International Insurance

Every student is required to have International Insurance. We provide this for you, and the cost will be around \$1,200.00 per school year, which will be applied to your account in the Business Office at the start of the school year. This is only medical coverage. Our provider for this insurance is, GeoBlue Insurance Company.

If you already have insurance that will cover you while you are in school for the 2017-2018 school year, you must provide documentation and a letter stating that you are covered. The documentation must be in English and submitted every year before the beginning of the semester.

Thank you,

Dr. Nicky Boyd

Director of International Students
