

HONORS SYMPOSIUM

FLIGHT INFORMATION

Students making arrangements to fly to Honors Symposium should plan to arrive at the **Little Rock** airport between **10:00am and 1:30pm** the beginning Friday of their session. A faculty member will pick up all of the students arriving on that day. Students arriving in the morning will be provided lunch, and then they will wait for the early afternoon arrivals. The students will be driven to the campus in time for the afternoon registration.

A faculty member will be waiting for the student at the Transportation Security Administration exit. The Little Rock airport is small. Everyone must go down on the escalator to reach the luggage area. It will not be difficult for the arriving students to connect with the faculty member. He or she will have pictures of the students for easy identification.

Return flights should be scheduled out of **Little Rock** airport for the morning of the closing Friday. Flights must depart **after 9:00am**. The van will leave campus in time to deliver the student with the earliest departure time.

*****Because of the time and distance involved, we cannot provide transportation from the Memphis airport.*****

All flight itineraries must be sent to our office PRIOR to the session.
